Thank you for the email. Unfortunately the attachments did not seem to appear in the email. They showed up as a txt.doc with no data. Would you mind resending? Ex. 6 PP / Ex. 7(C)

Per the US EPA's request, please find the attached Zip Drive with the Tenant Inspection Program (TIP) Table 4 (Hazardous Materials observed onsite) and Table 5 (Hazardous Waste observed onsite) for SoloPower. The building was inspected by Tetra Tech biannually since Lease inception until August 2018.

Clean Harbors Environmental Services, Inc. (CHES) has removed and disposed of containers of hazardous materials in accordance with applicable regulations, drained/pumped out residual chemical solutions from process equipment, and cleaned floors, walls, and equipment exteriors of chemical residues that were left behind when the Tenant's manufacturing operations ceased. Tetra Tech, Inc. (Tetra Tech) has monitored CHES's cleaning activities, performed visual inspections, and monitored clearance air and surface wipe sampling throughout the facility. Oregon Department of Environmental Quality (ODEQ), Northwest Region, has monitored the profiling of waste materials removed from the Site under uniform hazardous waste manifests.

All hazardous substances previously stored by SoloPower Systems, Inc. (SoloPower) have been removed under manifest as of January 22, 2019.

Thank you in advance for your efforts.

Thanks for chatting. I appreciate your assistance in the matter. As we discussed, the T4 and T5 tables would be helpful in our investigation into Solopower in terms of understanding historical and recent volumes/quantities of waste generated and stored in the building before the lien notice. Let me know how best to receive them if email works or if I can bring TT a thumb drive. Any other questions feel free to call. Ex. 6 PP / Ex. 7(C)
